

Press Release
2009 November 2nd

Hungary's Energetic Trade Fair 4th RENEXPO® Central Europe May 27.-29. 2010 Budapest, Hungexpo Fair Center

After the great success of RENEXPO® Central Europe in 2009, the event will be already organised in 2010. It would be Hungary's energetic trade fair, what introduce the innovative and energetic solution, which will be necessary for us; it focuses on the theme of renewable energy and energy efficiency.

In 2009 100 exhibitors from 8 countries presented their products and services on 3500 m2, so the number of the exhibitors would be more with 20% and the exhibitions area would be more with 50%. 60% of the exhibitors were from Hungary; another 40% came from Germany, Austria, China, France and Romania. More than 3500 Visitors from Austria, Romania, Slovakia, Slovenia, Croatia and Italy saw the exhibition.

The exhibition can be visited in the C Hall and on the open space of Hungexpo Fair Center in Budapest. 120 exhibitors, 4000 visitors, 300 conference participant are awaited on 27th -29th May 2010.

Traditionally the internationality of the exhibition will be higher with the participation of a partner country. In 2010 according to our plans this position will occupy Sweden. The visit and participation of Swedish economical professionals are expected too, which assists great to the evolution of double side contacts and to the exchange of environmental experiences.

The themes range from bio energy, over sun- and wind energy, to geothermal energy and heat pump. The event focuses to energy efficiency and the themes of waste to energy. The Electro and energy efficient mobility is a newness of the exhibition.

Parallel the exhibition will be organised more professional conferences on the 3 days, among others in the theme of bio energy and waste to energy, but the cogeneration, decentred energy production, the attach of virtual micro grid to the big grid, the west-European and Hungarian experiences and opportunities of regional district-heating supplier will be presented too.

The 4th RENEXPO® Central Europe will be the most important meeting point of the region, which is on the one part the yearly meeting of renewable energy branch, on the other part the place of the presentation firms and organisations, which wants to have determining position in the growing and rising Hungarian market.
